

Cycling classic again part of the Frankfurt Hero

The Frankfurt Hero series kicked off last weekend. The Frankfurt half marathon set a record in perfect running weather and was sold out with 9,000 registrations. A great start for the Frankfurt sporting events. Anyone who also takes part in the Škoda Velotour on May 1 and then the Frankfurt City Triathlon (July 28) after the half marathon is a "Frankfurt Hero".

The "Frankfurt Heroes" are an ambitious group of athletes in the Main metropolis: they have run a half marathon and completed a cycling race and a triathlon, each at their favorite distance.

The top of these ambitious athletes even opted for the longest distances and thus qualified for the special "Frankfurt Hero Champion" classification. In addition to the half marathon and the middle distance of the triathlon, they also mastered the Škoda Velotour Taunus Classic. The athlete with the fastest overall time in all three events will be honored with the champion title and awarded free starts and non-cash prizes.

New: Frankfurt Hero Volunteer

Volunteers are indispensable for all Frankfurt sporting events. Whether it's securing the course, handing out starting documents or at refreshment points - the volunteers help to ensure that the events are a great experience for all fans and athletes. Reason enough to celebrate the volunteers!

The Frankfurt Hero Initiative has therefore added an innovation to the program for the 2024 sports year: Anyone who takes part as a volunteer in at least three of four top events this year is a Frankfurt Hero Volunteer. In addition to the Škoda Velotour, the Frankfurt Half Marathon and the Frankfurt City Triathlon, the Ironman Frankfurt is also one of the sporting highlights that honor Frankfurt Hero Volunteers. As a thank you, all Frankfurt Hero Volunteers are invited to a joint award ceremony with the Frankfurt Heros in Frankfurt's Römerhallen at the end of the season.
